

February 19, 2007

Dear Kent Custom Homes,

When Walter and I first made the decision to purchase property and build our own home everyone told us how hard it would be on our relationship. We weren't married prior to making these decisions needless to say we proved everyone wrong, but not without your help! Building a home for the first time was scary. We didn't know what we were doing but thanks to Kent and Jimmy the process was easy and stress free. Anytime we wanted to make a slight change or alteration to our original plan it was never a problem. There were times we weren't sure of the decisions we were making so hearing the opinion of experienced builders such as yourselves helped us build the home of our dreams. We can honestly say, we truly enjoyed the home building process thanks to your commitment to us as your customers. This experience was a great one for us and we will continue to recommend Kent Custom Homes to all of our friends. Thanks again for building us the quality home of our dreams that we have always wanted.

Sincerely,

Chrissy & Walter Malukiewicz
